Why Choose Us?

	<p>1. Our Team. Yorkshire Fertility is a dedicated team of specialist doctors, nurses and support staff including two independent counsellors and a specialist dietitian. We have over 20 years' experience providing fertility services in Yorkshire and beyond.</p>		<p>6. Because Yorkshire Fertility is certified by the HFEA (Human Fertilisation and Embryology Authority) ensuring quality and transparency.</p>
	<p>2. Our Collaboration. By working in partnerships with neighbouring trusts and practices our specialist team are able to deliver care closer to home whilst providing access to state of the art laboratories.</p>		<p>7. Because we can help you access treatment abroad. If you choose to travel abroad for treatment we can help and support you.</p>
	<p>3. Excellent results: In 2016 more than 47% of our patients achieve a pregnancy from treatment.</p>		<p>8. Because we treat anybody. Whether you are entitled to NHS IVF treatment or not we will still see you in our clinic. We also have access to interpreting services so that there are no language barriers.</p>
	<p>4. Because there are no waiting lists.</p>		<p>9. Because we offer a personalised service. Open 6 days a week with access to an out of hours service, 24 hours a day your care is consistent and we personalise treatment for your individual needs.</p>
	<p>5. Because we offer an excellent egg donation program.</p>		<p>10. Because we offer a holistic care package. We work in a hospital setting with access to blood tests, x-ray, departmental scanning, gynaecology, andrology and psychological support services.</p>

Where would you like to receive treatment?

our Team

Experience, Dedication, Expertise.

We are a dedicated team of specialist doctors and nurses, support staff, a specialised dietitian and independent counsellors. We all work with the aim to put patients first and tailor our services to you,

Our Fertility nurses have years of experience and will hold your hand every step of the way. We are available 24/7 and are only ever a phone call away, no matter how small your query we will be there to answer your questions and support you through your fertility journey. We also have a dedicated email address for patients to contact with queries and a website which is full of up to date information.

Testimonials

We were referred to the Yorkshire Fertility Clinic after 2 years of trying to conceive. We were both fairly confident at the time that all the tests would come back fine, but agreed that it was worth checking. Finding out that we did actually have some serious fertility issues came as a massive and very painful shock. It was the start of the most difficult 2 years of our lives but we could not have asked for a more warm, friendly, professional and empathetic team of people to guide us through it. At such a difficult time you want to surround yourself with support and that's exactly what we got at the clinic.

I can't praise the nurses enough! They were so understanding and caring that it felt like we were being supported by close friends. The doctors that we saw were experts in their field with years of experience behind them. They were honest and open with us on our options and our chances of conceiving, even when news was not always good. This allowed us to make clear and informed choices and 2 years after being referred and 1 successful round of IVF we were blessed a miracle. Our beautiful baby girl, Scarlett.

You have given us the most precious thing in the world. We can not thank the Yorkshire Fertility Clinic and their staff enough!

Tara Lassey

Thank you so much for giving us our precious miracle Annabelle Rose France, she was worth the wait and all the treatment. You are all amazing and we will be forever grateful to every single one of you for everything you have done for us.

Helen and Marc France

We would like to say a massive thank you for helping us to complete our family. We feel so unbelievably lucky to have two precious daughters (Emily now 2.5 years old has become a big sister to Bethany). Both born after ICSI and it would never be possible without the help and support of your amazing team. We owe you so much for making our dreams possible and will be forever grateful. Keep up the great work.

Donna Anthony

Thank you from the bottom of our hearts for helping us to become a family. We cannot even begin to thank you enough for all the help, reassurance support and above all the hope that your team gave us throughout our treatment. A special mention to Michelle and Helen who practically held our hands through it all. Ruby Grace Gripton was born on new years eve at 11.22am weighing 6lb 1oz she is just wonderful and we are so happy, thank you.

Beth and David Gripton

our Central Units

Our continuing collaborative status enables us to work along side some of the most advanced fertility services in the UK. We are committed to giving patients choice and allowing them access to the most current treatments. We will always be impartial and allow patients to make their own choices. We also offer our services to patients who choose to have their treatment abroad. Being a satellite service we offer care closer to home but with the wider choice of travelling for treatment if you decide to.

CARE FERTILITY MANCHESTER

The team at our clinic in Manchester are delighted to announce that we have the very best success results in the Manchester & North West region, with up to 39.5% compared to the national average of 30.8%. CARE Manchester also recently underwent a full, £5 million refurbishment, making it a world-class, state-of-the-art environment for our patients.

CARE FERTILITY SHEFFIELD

With our consistently excellent results and commitment to introducing new and better treatments, you are sure to feel welcome and supported at CARE Fertility Sheffield. Originally established back in 1987, we took over our Sheffield fertility clinic in 2001 – and we've been leading the way in the local area ever since.

At Manchester Fertility our sole focus is your success.

We do everything we can to ensure that you arrive as a patient and leave us as a parent, fully supporting you at every stage of your treatment journey.

Leeds Fertility (LF) was established in January 2010 as the result of the merger of two very successful Reproductive Medicine Units based within the Clarendon Wing at Leeds General Infirmary and the Gledhow Wing at St James's University Hospital. The new Centre is now located at the Seacroft Hospital in purpose developed facilities that we believe are more suited to your requirements.

our Locations

We understand that our patients have busy lives with work and other commitments. We have taken this into account and now offer clinics in Wakefield, Dewsbury, Halifax and Bradford.

This allows us to reach out to patients within the region cutting travel times and making your fertility care fit in with your life style as best we can. We also offer a virtual patient consultation service whereby you can have your appointment via HD video link meaning you can have your appointment from the comfort of your own home, office or chosen location.

Treatments

Our treatments are always personalised and tailored to each patient. While one treatment may be suitable for one person, another may not be at all.
